SUMMARY

Software Engineer with 2 years of experience building Salesforce–MuleSoft integrations, 30M+ record data migrations, and REST API integrations (SAP, DocuSign). Founding engineer at a healthcare startup: shipped a Flutter app to Google Play, a WhatsApp booking bot on the Meta Cloud API, and backend integrations on .NET and Laravel APIs. Salesforce-certified MuleSoft Developer (Level 1 & 2) and AI Associate.

WORK EXPERIENCE

Software Engineer

Shineywise Technologies Pvt. Ltd.

Sept 2024 – Present

Noida, Uttar Pradesh

- **Data Migration:** Migrated 30M+ records into Salesforce CRM using MuleSoft batch processing and optimised data mappings, validated for accuracy.
- **SAP–Salesforce Integration:** Designed the API-led integration layer between SAP and Salesforce on MuleSoft Anypoint with RAML-specified API contracts.
- **DocuSign Integration:** Integrated DocuSign REST APIs and webhooks to automate document delivery, e-signature tracking and status updates in Salesforce.
- **Salesforce Backend:** Implemented business logic with Apex triggers, batch jobs and Flows; automated builds and deployments with GitHub Actions CI/CD.
- **Internal Tooling:** Scripted migration mapping and RAML generation, cutting turnaround from 5 days to about 1 hour.

Founding Engineer & Executive Member

Banj Life Care

Feb 2026 – Present

Dehradun, Uttarakhand

- **Founding Contribution:** Joined at the idea stage and helped establish a healthcare diagnostics lab; sourced and negotiated import deals for diagnostic analysers.
- **Product Engineering:** Built and shipped the patient app, collector app and WhatsApp booking bot end to end, including Play Console publishing (details under Projects).
- **Backend & Automation:** Extended the ASP.NET Core (.NET 10) + PostgreSQL + Firebase API with collector report upload, cross-channel identity linking and order geolocation; built cron-based git auto-deploy pipelines with health checks and watchdogs on CloudPanel/Linux for the Laravel 11 sandbox API and the bot.

PROJECTS

Banj Life Care Patient App – live on Google Play

Flutter, Firebase Auth, .NET API, Play Console

OTP login, test catalogue and cart, home-collection booking with saved addresses, order tracking, report downloads and in-app account deletion; owned the Play Console listing, data-safety and policy review. Companion collector app: Microsoft 365 (MSAL) sign-in, job list, sample-collection workflow, report upload.

WhatsApp Booking Bot – Banj Life Care

Node.js/TypeScript, WhatsApp Cloud API, Firebase Admin, Vision OCR

Menu-driven booking, order tracking, live location sharing to the collector, and prescription photo upload with OCR matched against the test catalogue. A Firebase auth bridge turns the WhatsApp number into a trusted identity for the .NET API; auto-deploys from git to a Linux server.

LeadHunt – Lead discovery and cold-outreach SaaS, in production

FastAPI, React, PostgreSQL, Docker, Render

Multi-user SaaS: Google Places discovery, website email scraping, CRM pipeline, sending from each user's own mailbox, multi-step follow-up campaigns run by a background scheduler, open/click tracking and unsubscribe handling.

SpeakWise – AI English coach, Android prototype

Flutter, FastAPI, Groq LLM

The learner writes or speaks; the coach replies conversationally and marks grammar, vocabulary and spelling mistakes with a corrected rewrite and a fluency score. Free-tier AI backend with no billing dependency.

Clinic Websites – Dr. Kartik Thurwal (live), Dr. Pawanindra Lal rebuild

Eleventy, Decap CMS, GitHub Pages

Mobile-first sites with click-to-call and WhatsApp buttons. The rebuild added Decap CMS so the doctor's team edits pages without a developer, plus a content audit, analytics and a review build before domain cutover.

TECHNICAL SKILLS

Languages: Java, JavaScript/TypeScript, Python, Dart, SQL

Backend: Spring Boot, MuleSoft Anypoint, FastAPI, Node.js, Laravel, PostgreSQL

Frontend & Mobile: Flutter, Firebase, ReactJS, HTML, CSS

Salesforce & Integrations: Apex, Triggers, Flows, Security; Meta WhatsApp Cloud API, DocuSign

DevOps: Git, GitHub Actions, Docker, AWS, Linux

EDUCATION

Dr. A.P.J. Abdul Kalam Technical University

2020 – 2025

Bachelor of Technology in Computer Science

Gautam Buddha Nagar, Uttar Pradesh

CERTIFICATIONS

MuleSoft Developer – Level 1

Salesforce Certified, ID 6938206

MuleSoft Developer – Level 2

Salesforce Certified, ID 6984240

AI Associate

Salesforce Certified, ID 5542616
